Method note: Weighted rates divide the combined retained headcount by combined original cohort enrollment for cohorts with comparable data. Rates above 100% indicate added students, not retention beyond the full original cohort. Transfer-completion, mixed-cohort, and baseline-only classes are shown but excluded from weighted KPIs.

Method note: Snapshot 1 uses eight cohorts with stable original denominators and at least one follow-up Term 5. Identified drops are summed by cohort, while added students are shown separately. Snapshot 2 reports 144 graduates across five completed groups; the comparable 52-month award rate uses only Class of 2023 M, Class of 2025 M, and Class of 2025 H. Transfer and mixed completion groups are included in graduate totals but excluded from the 52-month denominator.
